

ATTENTION: ALL POTOMAC PHYSICIANS PATIENTS

We are reaching out to inform you that on Oct. 2, all Potomac Physicians practices will be moving to a new patient portal, as part of our effort to integrate our practices more fully with LifeBridge Health and provide you with seamless access to additional LifeBridge Health services.

Between Oct. 2 and Oct. 5, you will not be able to contact your provider through our current (Aprima) patient portal. Starting on Oct. 5, you will be able to contact your provider through our new LifeBridge Health (CERNER) patient portal.

In order to do so, you will need to register for a new portal account. You can do this by visiting www.mylifebridgehealth.org/phr and requesting an account. We are working to move your patient information into our new system, so please set up your new CERNER portal account so you can continue to communicate with your provider and your primary care office using a patient portal.

Should you need to reach your provider between Oct. 2 and Oct. 5, or have any questions about our new patient portal, please call your provider's office.

Thank you for your patience during this time.

Sincerely,
Potomac Physicians
